Children's Activity Bible
 SOFTCOVER ISBN: 9788771321104
 HARDCOVER ISBN: 9788771321081

Here is a Bible that teaches children what God's Word says while engaging them in fun and challenging activities. After each Bible story are word searches, puzzles, and other entertaining and challenging activities. Beautiful color illustrations help children visualize the story of God's love from the beginning with Adam and Eve to King David to Jonah and on to the life, death, and resurrection of Jesus. This action-packed book contains more than 100 Bible stories and activities to both teach and amuse. For children ages 4 to 7.

How Great is Our God Series
Book One -The Universe
Age: Adults
Size (W x H): 260 x 260mm
Pages: 168
Full color
Hardcover
Retail price: US \$24.95

The Heart of the Earth

The Earth, at a distant point in time, is a vast expanse of molten rock. In the center, a small, glowing sphere of fire, the core, is the heart of the planet. The heat from the core is what drives the tectonic plates and the volcanic activity that we see on the surface.

"The Earth is a vast expanse of molten rock. In the center, a small, glowing sphere of fire, the core, is the heart of the planet. The heat from the core is what drives the tectonic plates and the volcanic activity that we see on the surface."

The Heat of the Sun

LIKE MOST STARS, the sun is a primarily made of hydrogen and helium. The sun's core is so hot that the atoms are ionized, and the gas is in a state of plasma. The heat from the core is what drives the solar wind and the solar flares that we see on the surface.

"The sun, with all the planets revolving around it, and spreading its light across the sky, is still a part of the same system of stars that we see in the night sky."

This coffee table book has fantastic photos of the universe with inspirational quotes on the greatness of God, facts and explanations of each picture, and Bible verses for reflection.

This beautiful art book is ultimately about the scale, beauty, and mystery of the Creator and Sustainer of the Universe – the One behind black holes, supernovas, solar flares, galaxies, and gas giants.

Discover the magnificent images and facts of one aspect of creation in this first book *The Universe* in the *How Great is our God* series!

Don't miss our free Children's Bible book and game apps!

The digital market is booming and Scandinavia's app development program has likewise exploded. In 2012 we expanded from one to thirteen apps, and more are being added each month. The apps are being sold worldwide even in closed Muslim and Communist countries where Christian books and symbols are not permitted. This is a fantastic new way to get the gospel to the World.

We have developed different apps targeting specific ages. For toddlers, we have developed an app with books that also have video since little ones don't read yet. For teens, we have developed guided view, which enhances action and cartoon-style reading. For the more playful, there are games. We have also developed options for those who want to learn the language or improve their reading.

This is only the beginning, so LET'S GO DIGITAL!

Noah's Ark: Ancient Accounts and New Discoveries

A large wooden structure has been spotted under the ice of Mount Ararat. Does this verify the biblical account of Noah's Ark? Is the story of a Great Flood which is found in many ancient civilizations more than just an old myth?

This book takes you on an exciting journey to the heart of these questions and many other mysteries that have puzzled mankind for thousands of years.
